

## BUCKET WITH WRINGER

Durable, cost effective quality

Professional-quality mop bucket and wringer are ideal for just about any mopping task. Durable polypropylene construction is corrosion resistant ensuring long-lasting product life. Non-marring 3" diameter swivel casters allow for easy manoeuvrability on hard floor surfaces.

High-efficiency side-press wringer features a comfort grip handle that transfers pressure to the middle of the bucket for easy, efficient mop wringing and can accommodate a variety of mop sizes. Mop bucket with wringer combo can hold up to 35Qt/32L (86232) or 38Qt/36L (86236) of water. Also available in down press configuration.

QUALITY INDUSTRIAL MECHANISM
